

PET POLICY

Introduction

AHA recognises that pets can have a very positive effect on people's lives and can provide companionship and enjoyment for a great many people. We wish to support residents to be responsible pet owners and therefore do not impose unnecessary restrictions on pet ownership. Equally however we know that pets are expensive to look after and if not cared for correctly can cause damage to properties and be a nuisance and danger to other residents.

AHA's policy aims to strike a balance so that responsible residents can enjoy the benefits of pet ownership but this is not an automatic right and permission will be withdrawn should owners not behave responsibly.

This policy covers the following issues

- What pets can be kept and in what circumstances
- The action AHA will take when pets are kept inappropriately or cause a nuisance to neighbours.

1. Applicants applying for Social Housing

- a. Applicants for housing are asked to indicate on their application form if they intend to keep a pet. This will not prejudice their application unless they plan to keep a pet for which permission will not be granted. If this is the case the matter must be resolved before an offer of accommodation is made.

2. Pet ownership not needing permission from AHA

- a. AHA permits tenants to keep a small number of pets without having to seek official permission from us. For example Rabbits, Guinea pigs, Mice, Dwarf hamsters or small caged birds e.g. Finches, Budgies or Canaries. This is only permission for a maximum of 1 or 2 small pets and permission is not granted for multiple small pets.
- b. Appendix 1 shows a full list of which animals are allowed without permission and in what numbers. It also clearly identifies animals which will not be permitted under any circumstances. This list has been drawn up in partnership with the States Veterinary Officer. Tenants are only permitted to have one type of pet from any one category. Should you want more than two small pets in total from any category you must seek permission from AHA.

3. Obtaining permission for other pets such as a cat or dog

- a. Anyone wishing to get a cat or a dog or a pet not on Appendix 1 would need to complete an application form requesting permission from AHA.
- b. If necessary AHA will seek advice from animal welfare agencies and The States of Guernsey Veterinary Officer but the decision as to whether permission will be granted will be with AHA as the landlord of the property.

4. Permission will be granted if the:

- a. Animal is suitable for the size of the property. To clarify; permission will not be granted for a dog in a flat unless there is an outside area, garden or balcony and the

property has its own outside entrance. Permission will only be granted for a cat if the resident has their own outside entrance.

- b. Space needed to keep the pet does not detract from the primary use of the property.
- c. Breed of dog is on the AHA list of acceptable dogs Appendix 2.
- d. Animal is not a farm animal for example chickens or a pig.
- e. Owner has the correct licence and/or permission from the States Veterinary Officer if required.
- f. Potential owner has not been found guilty or been suspected of causing cruelty and neglect to an animal in the past.
- g. Tenant is able to care for the pet (if for example through poor mobility or health the tenant is unable to care for the pet the tenant will need to make arrangements for the pet to be cared for).
- h. Tenant does not owe AHA any money, has not fallen into rent arrears in the last 3 months and has a good history of rent payment.
- i. The animal will receive regular treatment to avoid the risk of infestation in the property from fleas and other insects.
- j. Animal does not pose any risk or danger to other residents.
- k. Animal does not cause nuisance by excessive noise (barking, whining, howling or squealing).
- l. Animal is not allowed to roam unattended and is kept under control (excluding cats).
- m. Animal is not left tied up.
- n. Animal does not foul in neighbouring gardens or in communal areas on the estate.
- o. Owner immediately clears up after their animal and bags up and discards appropriately any animal excrement either in a designated bin or takes it home to dispose of.
- p. Keeping of the animal does not cause unpleasant odours for neighbouring properties.
- q. The animal has been micro chipped.
- r. The animal is neutered or will be neutered by a qualified Vet as it reaches an appropriate age for neutering.
- s. Pets shall not be kept or bred for any commercial purposes.
- t. Tenant does not already have 2 dogs or 2 cats or a cat and a dog.

5. Should these conditions not be kept to:

- a. AHA will withdraw consent for any pet(s) should:
 - Any of the above conditions be breached or
 - Where the keeping of such pets results in a breach of the tenancy or licence agreement
- b. Should the tenant breach these conditions AHA will commence legal action to repossess the property.

Date Approved:	December 2018	Date for Review:	December 2020

APPLICATION TO ACCOMMODATE A PET

Completing this form does not guarantee permission will be granted. You must have received permission from AHA before you obtain or keep at your premises any pet /animal.

Please read the enclosed AHA Pet Policy prior to completing and returning this form to AHA.

If you already have a pet/pets please provide details below.

- Do you have permission from AHA to keep this pet? YES / NO

Type of pet(s)	Breed	Age	Where is/are the pet(s) kept?	Any other details?... e.g. Spayed/Neutered or Trained assistance

Please provide details of the pet/animal for which permission is being requested:

Type of pet(s)	Breed	Age	Where will the pet(s) be kept?	Any other details? e.g. Spayed/Neutered

Where is the above animal(s) currently being kept?.....

Please note before AHA can grant formal permission to accommodate a cat or dog, a home check should be carried out by a recognised animal welfare agency.

If you are requesting permission to obtain a cat or dog please answer the following questions by circling the correct answer (documentation may be requested).

- Has the animal been or will the animal be neutered / spayed? YES / NO
- Do you / will you have a Licence (*if required*) to keep the animal? YES / NO
- Is the animal or will the animal be micro chipped? YES / NO

Please attach confirmation documents for the above, or within two weeks from the date you obtain the animal. A kitten/puppy will need to be neutered/spayed.

If you have answered NO to any of the above questions please give a detailed explanation:

.....

Where is/will your pet(s) be registered?.....

- I/We do hereby declare that details provided are true and correct.
- If permission is granted to keep an animal I/We acknowledge that I/We have read and fully understand the conditions of the Pet Policy and agree to be bound by them.
- I/We also acknowledge as part of this application AHA may share and continue to share information provided to all relevant organisations such as: States of Alderney, Alderney Police, States of Guernsey Veterinary Officer, Animal Welfare Clinics etc.

Signed: Signed:
(Tenant) (Joint Tenant)

Date: Date you would like to keep your pet/animal :

Appendix 1

The tables below indicate various categories of animals that tenants may be looking to keep as a small pet. The pets high-lighted in **green** do not need permission as long as the tenant complies with the maximum number and that where required they are neutered.

Tenants are only permitted 1 option from any section without asking for permission. Should tenants wish to keep multiple pets they would need to obtain permission from GHA.

The tables indicate the maximum number allowed and the maximum number of cages.

Rodents

Female rabbits and guinea pigs should be neutered for health reasons and to prevent breeding.

Rodent size	Extra Large	Large	Medium	Small	Extra small
Examples	Giant rabbit	Rabbits	Chipmunks	Rats	Dwarf hamsters
		Dwarf rabbits	Chinchilla	Gerbil	Mice
		Guinea pigs (out doors only)	Degu	Hamster (1)	
Maximum number in this category	4	4	4	4 Only 1 hamster	4
Maximum number of cages	2	2	2	2 for rats/gerbils 1 cage for a hamster	2
Where they must be kept	Outdoors + neutered	Outdoor/indoor + neutered	In/outdoor large cage required	Rats and gerbils need larger cages	Indoors

Birds – many exotic birds are protected under the CITES (Convention on International Trade in Endangered Species) regulation. Those highlighted in red are not permitted.
